

Mine!

Olivia Huth

Rabbit, mouse and bear have discovered a delicious apple high up in the tree. Everyone wants to have the apple for themselves. Rabbit can do high jumps, but unfortunately he ends up in the wrong place. Mouse is clever and builds a tower. She is about to reach the apple when the bear's paw grabs the branch. But even bear cannot get close to the apple..

It is only when the three come up with the idea of joining forces and helping each other that they manage to pick the apple from the tree. What a treat! This really is the tastiest apple in the world! And tomorrow they will pick more apples—together.
