

The Illustrator

Philipp Stampe was born in 1963 in Hamburg/Germany. He initially worked as a storyboard illustrator in the advertising industry. Philipp changed over to the creative side pretty quickly and has now been working as a Creative Director for lots of big advertising agencies in Germany for many years. If left with some spare time, he dedicates all his energy to his illustrations. He has created several mascots as well as CD and book covers and his caricatures have inspired several advertising campaigns. Philipp lives in Hamburg with his son Liam and his girlfriend.

The Author

Dörte Horn was born in 1978 and has been working as a freelance journalist for magazines and newspapers in Germany for many years. She has been living in Australia with her husband and her two children Oskar and Mathilda since 2007.

- Successor to the bestseller *Sleep Tight, Digger Dan!*
- Lovely illustrations
- Bound to be a success: talking vehicles

PHILLIPP STAMPE & DÖRTE HORN

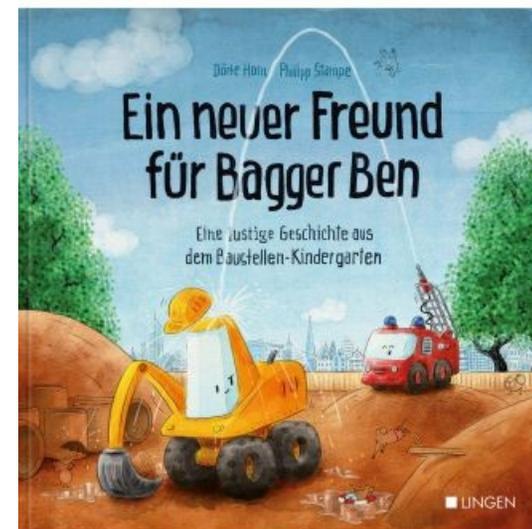

A New Friend for Digger Dan

When Digger Dan and his friends work on a new project at the Digger Day Care, every single vehicle has to give a helping hand. Each little vehicle is given a specific task. But how can the new vehicle, Finn Fire Engine, be of use? Is he just getting in the way of everyone else—or can he prove himself to be a great help?

A wonderful story that demonstrates how each and everyone has his/her own particular strengths.

PRAISE FOR *SLEEP TIGHT, DIGGER DAN!*

“*Sleep Tight, Digger Dan* is a fabulous bedtime story for truck and digger loving young ones who need a little encouragement to calm their engines before bedtime and a magical way to introduce them to the story of the sandman.” - *childrensbooksdaily.com*
